

# Photo Permission or Opt-out Form

We are a Christian community blessed with vibrancy and diversity. Our members come from around the Atlanta metro area and around the world. And we draw families and singles of all ages—infant to Primetimers. One of the best ways to show the “life” in our growing parish is through photos. *As the saying goes, pictures are worth a thousand words...*

Please know, however, that we take very seriously the safety of our youth and children when it comes to published images whether it is through the internet or printed publications. With this in mind, we want to respect the wishes of our families and ask that you consider whether or not you give permission for your children’s or youth’s images to be published. This form has two sections: Section I is for those who give their permission to publish images and Section 2 is for those who do not give their permission to publish images. Please take a moment a complete only one section and return to the church office.

## **Section I: Permission**

I authorize Christ Church Episcopal to photograph and reproduce images of my child or children for use in Parish produced publications (e.g. Communique, website, Facebook photo albums, Parish Directory).
